

Md Ridoy Babu

MERN Stack Developer

+8801735699781 ridoy.babu.781@gmail.com [github](#) [LinkedIn](#) [Portfolio](#)

PROFILE

Motivated Junior Web Developer specialized in the MERN Stack (MongoDB, Express.js, React.js, Node.js) with hands-on experience in developing and deploying scalable, responsive, and secure full-stack web applications. Proficient in clean code practices, API implementation, authentication systems, and designing clean, maintainable front-end architectures. Committed to continuous learning, clean code practices, and delivering user-centric digital experiences.

SKILLS

Frontend:	React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Zustand, React Hooks, Responsive Web Design, Framer Motion.
Backend:	Node.js, Express.js, MongoDB, REST API Development, JWT Authentication, OAuth, Zod Validation, Payment Integration (SSLCommerz, Stripe), Modular Architecture.
Tools & Platforms:	Git, GitHub, Postman, Firebase, Vercel, Render, Netlify, Cloudinary, Nodemailer, NPM, NextAuth, VS Code.
Soft Skills:	Problem Solving, Team Collaboration, Analytical Thinking, Clean Code Practices.

PROJECTS

YourTutor – Full-Stack Learning Management System [Live](#) [Frontend](#) [Backend](#)

- Built LMS using React, TypeScript, Express, and MongoDB.
- Implemented JWT + cookie-based authentication with role-based access.
- Enhanced features for classes, meetings, payments, sign-ups, and feedback.
- Managed state with Zustand; styled with Tailwind CSS; handled media via Cloudinary + Multer.

MyNextTrip - Travel Agency Web App (Backend) [Github link](#)

- Developed a secure backend for a travel booking system focusing on real-time data flow, payments, and authentication.
- Built backend using Node.js, Express, and MongoDB.
- Implemented JWT-based authentication with secure cookies and bcrypt password hashing.
- Integrated SSLCommerz for online and cash payments and managed travel, booking, and admin features.
- Managed media uploads with Cloudinary and email verification/password reset via Nodemailer.

EcoBazar - E-Commerce Platform (Backend) [Github link](#)

- Developed a modular, scalable backend for an e-commerce system supporting payments, authentication, and media management.
- Built backend using Express, TypeScript, and MongoDB with a modular structure.
- Implemented JWT authentication with role-based access and bcrypt password security.
- Integrated SSLCommerz for online payments and managed products, orders, carts, and reviews.
- Managed images with Cloudinary, input validation with Joi, and email notifications via Nodemailer.

EDUCATION

Kurigram Polytechnic Institute, Kurigram 2022 – 2026 (Ongoing)
Diploma in Computer Science & Technology

ADDITIONAL INFORMATION

Languages: Bangla, English
Certifications: MERN Stack Web Development - Interactive Cares
