

MD RIDOY BABU

Full Stack Developer (Next.js, React.js, Node.js, Express.js, MongoDB, SQL)

Dhaka, Bangladesh | +880 1735-699781 | ridoy.babu.781@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with professional experience building and deploying web applications with Next.js, React.js, Node.js, Express.js, and TypeScript. Strong JavaScript fundamentals, with hands-on experience in REST APIs, MongoDB, PostgreSQL, Git, Docker, AWS, and CI/CD. Open-source contributor to the NestJS framework, comfortable working in large existing codebases, debugging production issues, and owning features end-to-end. Open to remote work and relocation.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3, Core Java
- **Frontend:** Next.js, React.js, Redux, Zustand, Tailwind CSS, Responsive Design
- **Backend:** Node.js, Express.js, NestJS, REST APIs, Microservices, Apache Kafka, WebSockets, Socket.IO, gRPC, Swagger
- **Databases:** MongoDB, Mongoose, MySQL, PostgreSQL, Prisma ORM, TypeORM, Redis
- **DevOps and Cloud:** Git, GitHub, GitHub Actions, CI/CD, Docker, AWS, Vercel, Linux, Nginx, Cloudflare
- **Integrations and Security:** Third-Party API Integration, Stripe, Firebase Cloud Messaging, JWT, OAuth 2.0, RBAC, OTP
- **Testing:** Jest, Vitest, Unit, Integration and E2E Testing, Postman
- **AI Tools:** Claude, GitHub Copilot, Google Antigravity

WORK EXPERIENCE

Backend Developer, Softvence Agency | Mohakhali, Dhaka

Nov 2025 – Aug 2026

- Built and maintained production-grade RESTful APIs and modular services with NestJS, TypeScript, Prisma, and PostgreSQL for high-traffic workloads.
- Designed relational schemas and optimized SQL queries with composite indexing, significantly reducing query time.
- Implemented authentication, authorization, input validation, exception handling, unit tests, and structured logging.
- Standardized Docker-based CI/CD environments and shipped features in Agile sprints with product, frontend, and QA.

OPEN SOURCE CONTRIBUTIONS

Contributor, NestJS (nestjs/nest) | Pull Request #17818

[GitHub](#)

- Fixed a bug where route-level file-upload options silently overwrote global MulterModule limits wholesale; added a shared mergeMulterOptions helper that merges limits key-by-key across all 5 Multer interceptors.
- Supported function-valued limits (multer 2.4+), widened the options type, and added helper unit tests plus per-interceptor assertions; 77 platform-express tests passing, with the behavior change and opt-out documented for maintainers.

Contributor, NestJS (nestjs/nest) | Pull Request #17798

[GitHub](#)

- Audited HTTP QUERY method (RFC 10008) support in the NestJS core and added integration and E2E tests verifying @QueryMethod() across the full request lifecycle: params, pipes, body, guards, interceptors, and exception filters.
- Added matching coverage for Express and Fastify adapters and fixed the Express E2E helper to preserve URL query strings; 808 integration and 1,971 package tests passing with no breaking changes.

KEY PROJECTS

MedCare: Distributed Healthcare and Telemedicine Microservices Platform

[GitHub](#) | [Live Demo](#)

NestJS, TypeScript, PostgreSQL, Prisma, Redis, Docker, Caddy, WebSockets

- Architected a database-per-service system of 11 microservices and 9 isolated PostgreSQL databases, communicating through hybrid RPC and asynchronous event streams.
- Containerized the full infrastructure with multi-stage Docker builds and scripted multi-database PostgreSQL initialization.
- Built a decoupled API Gateway with NestJS and Caddy, with Swagger docs, JWT authentication, and RBAC across 7 enterprise roles.
- Developed real-time clinical workflows with a check-in wizard, live token-queue SSE streaming, and WebSocket teleconsultation chat.

EDUCATION

Diploma in Computer Science and Technology, Kurigram Polytechnic Institute | 2022 – 2026 (Expected)

LANGUAGES

Bangla (Native), English (Fluent)
